

ClassyFM Admin Quickstart

A short summary of the day-to-day steps to start managing the ClassyFM website through the admin panel. For full details on every feature, see the **Admin Guide** ([ADMIN_GUIDE](#)); for superadmin-only features (Users, Legal Pages, SEO, Activity Log), see the **Superadmin Guide** ([SUPERADMIN_GUIDE](#)).

1. Sign In

1. Open <https://classyfm.co.id/admin/login>.
2. Enter your **Email** and **Password**, then click **Sign In**.
3. Forgot your password? Click **Forgot password?**, enter your registered email, and follow the reset link sent to that address.

Change your own password: click the account name at the bottom of the sidebar (**Profile** menu), then the **Change Password** section. **Log Out** is also at the bottom of the sidebar.

2. Layout & Common Conventions

- The **left sidebar** holds the menus: **Radio** (Programs, Broadcasters, About Us) and **Content** (Hero, Hot Release, Podcast, Event, Newsfeed, Media, Ads). On mobile, the sidebar is behind the hamburger button.
 - List pages have **Search**, column sorting (click a column header), and **50 rows** per page.
 - After a successful **Save/Delete**, a green confirmation appears. Delete always shows a confirmation dialog.
 - Image fields have a live preview; images are auto-compressed in the browser (JPG/PNG/WEBP/GIF). **On edit forms, leave an image field empty to keep the current image.**
 - **Active/Published** shows a green badge; **Inactive/Draft/Hidden** shows a grey badge.
-

3. Dashboard

The panel's home page: an **On-air** card (current & next programs, stream status, now playing, listener count), stat tiles, a **Needs attention** list (things to fix), listener and incoming-news charts, and feed-source health. Quick buttons: **New program**, **New hot release**, **Refresh feeds**.

4. Common Daily Tasks

Programs — Radio → Programs

Click **Add Program** (or Edit). Fill in **Title**, description, **Default broadcasters**, image, and check **Active**. On the edit form, use **Weekly Schedule** → **Add slot** to set the day, start/end times, and per-slot broadcasters. The system flags overlapping schedules (a warning, not a blocker).

Broadcasters — Radio → Broadcasters

Click **Add Broadcaster** (or Edit). Fill in **Name**, role, bio, photo (4:5 portrait), social links, and **Active**. Assignment to programs is managed from the **Programs** menu, not here.

Editorial news — Content → Hot Release

Click **Add Hot Release**. Fill in **Title**, excerpt, **Content**, cover image, **Publish Date**, then check **Publish** to make it public. The star icon on the list toggles featured inline.

Podcasts — Content → Podcast

Click **Add Podcast**. Pick a **Series**, paste a valid **Spotify URL** (open.spotify.com), and check **Publish**. Title, image, player, and description are pulled automatically from Spotify on save — use **Refresh from Spotify** when an episode's details change.

Home page — Content → Hero

Manage the homepage banner slides (**Add Slide**): badge, title, excerpt, image (2400×1200), optional link, **Active**. The **Hero settings** panel controls the mix of image slides and news.

Aggregated news — Content → Newsfeed

Auto-fetched news from YouTube/KlikPositif/KataSumbar. Toggle **Publish/Hide** (eye icon) and **Feature** (star icon); **Refresh Feed** pulls the latest. Manage sources via the **Feed Sources** button.

Others

- **Content → Event**: public events/promos.
- **Content → Ads**: banner ads for the top/bottom slots.
- **Content → Media**: official social media URLs (leave blank to hide an icon).
- **Radio → About Us**: the About page content.

5. Next Steps

- Full content management and per-field details → **Admin Guide** ([ADMIN_GUIDE](#)).
- Adding admin users, legal pages, SEO, and the activity log → **Superadmin Guide** ([SUPERADMIN_GUIDE](#)).
